

Senior School Success for Oakwood Pupils in 2026

At Oakwood, we are proud to be a place to grow – nurturing ambition, curiosity, confidence and independence in our pupils. The achievements of Year 6 this year reflects this journey of growth, with pupils securing places at a number of local state schools and a wide range of independent senior schools and achieving an impressive number of scholarships across academics, sport and the arts. These outcomes demonstrate the strength of our academic provision alongside the personal development that underpins success beyond the classroom. Through our strong relationships with both local independent and state senior schools, Oakwood pupils move on as confident, well-prepared individuals, ready to embrace the next stage of their education.
